

SDG 1: ROLE OF SMU IN AILING POVERTY IN THE STATE OF SIKKIM & NE REGION

SMU was setup in 1995 with a vision to cater quality education in fields of Medical & Technical education and provide quality healthcare to the state of Sikkim & adjoining states.

SMU has always taken a giant leap to provide quality medical and health education to the aspiring engineers and medical professionals from the state of Sikkim. Sikkim has the highest level of poverty across the Indian States during 1995. Based upon the report released by the Planning Commission of India, Sikkim has 30.9% population below BPL. Considering the facts during the time of establishment, SMU has started providing 20% seats to the students of Sikkim with a scholarship of 75% in the course fees so that even the common people of the society can think about sending their wards to professional programmes such as Engineering and Medical when it was a costly affair for normal people. A scholarship of 75% in the course fees can be seen as one of the turning points in the economic prosperity of the state of Sikkim as today SMU has produced more than 2100 Engineers & 300 Doctors from the state of Sikkim who have directly or indirectly helped the state to grow in terms of economic aspect.

The following are the data related to the scholarship of 75% in the course fees given to the students from the state of Sikkim in the Academic Year 2015-2022

Academic Year	No of Students who has received Scholarship of 75% in the course fees	Total Amount of Scholarship provided in lakhs (Rs)

SCHOLARSHIP (100% & 50% COURSE FEE WAIVER) TO DESERVING STUDENTS WHO LOST THEIR SOLE EARNING PARENT DUE TO COVID INFECTION

SMU has granted scholarships in terms of 100 % fee waiver to 07 students who unfortunately lost their sole earning member of the family due to COVID infection. The fee waiver is applicable till the students complete their program/course.

Similarly, 3 students were granted 50% course fee waiver for the entire duration of course.

SCHOLARSHIP FROM BENEVOLENT FUND

Objectives of the Practice: To provide financial support to students to continue their studies in case they lose the member to death/incapacitation, who provides financial support.

The context: In the year 2001, a student of 3rd year lost his father – the only earning member of the family, and consequently it appeared that he had to discontinue his studies at our technical institution-SMIT. Individual faculty members of SMIT provided him with financial support, and he could complete his studies. This incident underlined the need for us to have a better mechanism in the case where a student suffers a similar fate. The benevolent fund concept was proposed in the year 2002 and accepted by the management in 2003. A similar fund is also available in SMIMS.

The Practice: The fund is based on transferring a part of the fee of students to the fund. Individual contributions are also allowed.

Evidence of Success: Help has been extended to all deserving cases.

SEED SCHOOL FOR UNDERPRIVILEGE STUDENTS OF MAJITAR VILLAGE

SEED School is a social initiative taken up by Society of Electrical and Electronics Department (SEED), Sikkim Manipal Institute of Technology in 2009 to teach underprivileged students of Majitar Village. It is a successful initiative and the response to it is immense that it is continued and is run every year.

SEED School is an open resource, free of cost school to help the students in and around Majitar. SEED conducts evening classes for children from 4th standard up to 10th standard. Classes are taken by the students of the college who voluntarily take up the role of teachers to help children with their homework, identify the problem areas and teach them in second languages if needed. Subjects such as English, Mathematics and Science is focussed but is not limited to these subjects.
